Our Customer Promise

When we created Crescent Garden in 1999, we were skilled in manufacturing and design, and while enthusiastic about gardening we weren't yet experts. We set about listening, learning, and discovering from industry friends and colleagues what's needed for gardens and gardeners to thrive.

21 years later, the Crescent Garden Company is one of the premier container gardening providers, a pioneer in self-watering solutions, run by people who are professional, passionate and always in their customers' corner.

The Crescent Garden brand is trusted by independent garden centers and nurseries to offer containers and accessories, distinguished by refined design and breakthrough innovation that lasts and lasts, for successful, inspired gardening.

Our pioneering TruDrop system engineers self-watering planters to go up to weeks without watering, for phenomenal results and more confident gardeners. It dramatically transforms the way people care for plants.

And Crescent Too, brings attractive and useful containers and supplies that make gardening easier and more rewarding to more people, at an excellent value.

Crescent Garden believes that planters should work for you, not the other way around, and builds their R&D on design and innovation that pushes the envelope, legendary reliability and durability in whatever season, while understanding what works best for both healthy plants and the people who love them.

With a vision to make gardening more accessible and relevant to everyone, while pushing the industry standards for what's possible, we dedicate ourselves to a simple customer promise:

we help you grow

10 Year Warranty

Crescent Garden rotationally molded products provide a great value given their 10 year limited warranty.

Water Gardening

Easy to install and maintain, these containers are ideal to tap into the water gardening market. With a broad selection of shapes, depths and sizes, these containers can accommodate a variety of water gardening plants and fish. Some of our planters are also supplied with specialty plugs to use with fountain pumps.

No Drainage Holes

Many of our planters are designed with existing drainage holes in them. Those without them have been identified throughout the catalog.

Double Wall

Double Walled construction provides many benefits including superior structural integrity, enhanced appearance and insulating properties for better thermal protection of plant roots.

TruDrop

TruDrop System

Our patented TruDrop Self-Watering System is ideal both for indoor and outdoor use. Unlike traditional systems this will autoregulate even with rain water to make sure you have enough water when you need it and not too much when you do not. For more information see page 48.

Custom Color

Provide us with a Pantone color choice of your own and we can have the product manufactured specifically for your design needs.

HF Water Reservoir

This traditional self-watering system includes lava rocks to place at the bottom of the planter to create a small reservoir to extend between watering.

HF

HF System

This great selection of planters comes with the HF self-watering system for easy maintenance and healthier plants.

Diversity of Materials

From stainless steel, to wood and leather, these planters offer rich texture to match any environment both indoors and outdoors.

Custom Color

There is an endless possibility of color options as these planters can be customized for individual projects. Just contact our customer service for more information.

5 Year Limited Warranty

The materials and manufacturing of these products represent quality craftsmanship. The metals are forged from thick rolled materials making sure they are resistant. The wood veneers are selected for their uniformity in color.

High Gloss:
As shiny as your patent leather shoes, these planters will add stature to any interior environment.

Sleek and Simple:
Our stainless steel planters can add a timeless statement to any commercial environment.

Bring plants to Eye Level:
With our tall Ferrum planters you can make sure your plants are the focal point.

Natural Ash Wood:
Our new Fuse planters blend the soft feel of wood with metal finishes to give your plants the luxury statement they deserve.

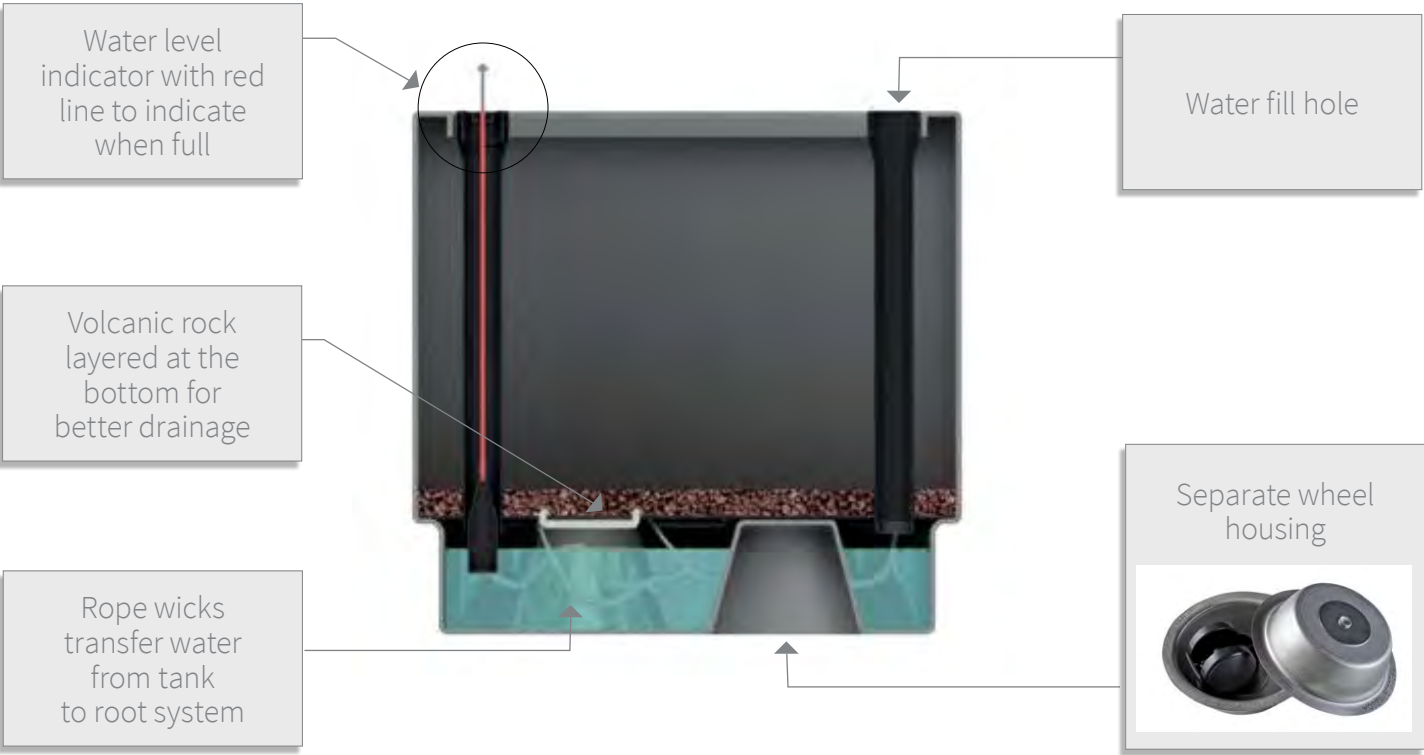

HF System

The HF patented self-watering system was first developed in Europe. These planters are manufactured with premium quality materials and ideal for both residential and commercial properties.

The self-watering system was designed for minimum watering. For indoor applications tank only needs to be filled 4 times a year and surface water introduced every 4 to 5 weeks. Watering will obviously vary on plant variety and air temperatures.

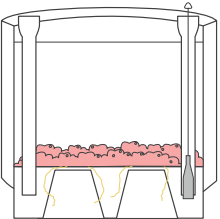

This system works to maintain plants healthier by increasing the circulation of oxygen to both water and roots.

- Patented System
- Easy to Maintain
- Uses less water
- Certified by the Spanish Departament of Plant Physiology
- Certified by the Spanish Society of Horticulture

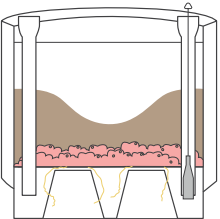

Easy to Use Planting System

1

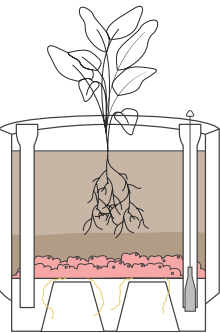

Each planter includes a bag of hydro rocks which should be layered at the bottom before planting. These rocks are porous and will absorb water, maintaining moisture near the plant's root system.

2

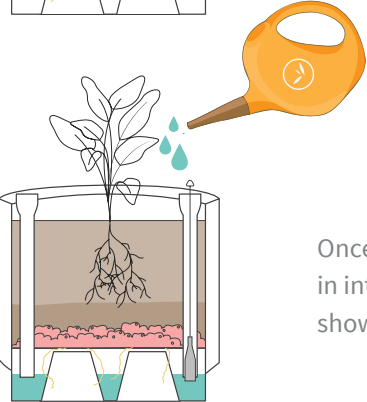

Rocks should be covered with a potting mix selected to complement your plant choice.

3

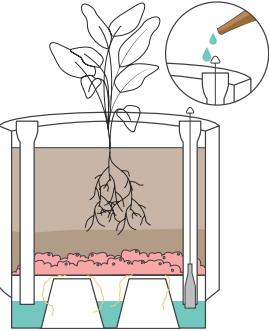

Plant should then be potted making sure to delicately separate roots.

4

Once planted, container should be watered slowly and in intervals, from the top until the water level indicator shows red for full.

5

Maintenance is easy. Fill the tank only 4 times a year and surface water every 4 or 5 weeks.

If using outdoors where planters will receive rain water please consult with us before hand to instruct on how to add an overflow drain.

Weeks without Watering

With our TruDrop self-watering, containers can go without watering for 2-6 weeks depending on plant selection and climate.

Safe, Efficient

With 50% less water usage and more efficient use of fertilizers that remain in the water cavity, these planters are environmentally friendly.

Easy

With no rocks or wicks, this single-body planter just needs potting soil and plant making it easy even for first time gardeners.

Dramatically Successful

In our planters with TruDrop the plants determine how much water they need instead of the consumer which renders phenomenal results.

TruDrop ONE

Finally.
A planter that
works for you.

Easy

Safe

Success

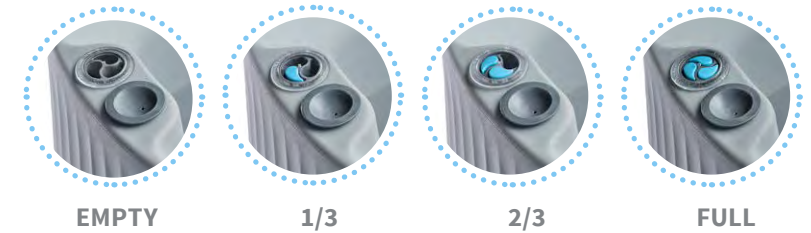

Efficient

Versatile

TruDrop: Grow Healthy Plants with Minimal Watering*

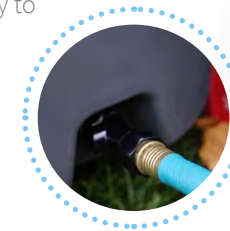

Water Level Indicator
Easy to read.

Easy To Fill Hole
Includes cap to avoid water contamination.

Double Wall Construction*
Large water reservoir allows plants to go longer without watering.

Mess Free Drain System
Optional quick connect coupling in larger planters facilitates draining planter without spillage.

Can connect directly to hose or pump.

Overfill Drain
When using outdoors, planter is designed to drain excess rain water.

Sealed Bottom
Plug included with planter for indoor use.

Capillary Action
Watering via roots creates healthy plants.

*Outdoor trials using a 20" (50,8 cm) planter have shown that plants can go for up to 6 weeks without refilling.

We never expected TruDropOne to change the way people garden but now we hear it from our clients.

“

“I returned home from **two weeks’ vacation...** and was very happy to see that my TruDrop planter did its job while I was away.”

Jed Laufferty, West Chester, Pennsylvania, U.S.A

“

“I think these are the **best** things since sliced bread lol.”

Jed Susan, Ontario, Canada

“

“They work great for me, as we live at a **lake home** with 6 outdoor pots and we are gone from our home several times a month for anywhere from a couple days to a week. With your pots, my flowers now make it through the summer without dying from lack of water.”

Debbie, Minnesota, U.S.A

“

“TruDrop’s claims that watering is only needed every two to six weeks sounded a little far-fetched, but... (It) works better than I ever imagined.”

Heather Rhoades, **Gardening Know How**

“

“The pottery is **gorgeous** by the way! We have one very happy customer - can't wait to order more!”

Erin, **Landscape Solutions Company**, Tennessee, U.S.A

“

I got 26 days out of it... I **saved** that much **time** watering!

Laura LeBoutillier, **Garden Answer**, Oregon, U.S.A

“

"Together, with my client ... I decided on the Rim Planters for the entrance of their business. Besides the beautiful design we chose them for the self watering feature.

The TruDrop system is fantastic! The plants stayed beautiful all fall long. This has been a game changer for them & for me to have them available for my clients."

June Spanier, **June of All Trades**
St. Cloud, U.S.A

“

“Where we were once watering every day, we are now able to simply “top off” each planter once a week. The savings in man power have been exponential.”

Mark Russel (Director of Horticulture), **SeaWorld Parks and Entertainment**, Orlando, U.S.A

“

“I absolutely love the Crescent Garden self-watering TruDrop planters. It is the first self-watering planters that I have found **that really work**. I think this is a perfect solution... for my clients who are busy with family and travel, and for my **commercial clients** who rely on building managers to water. It **eases** the work load for everyone.”

Julie Friedman,
Exteriors Container Garden & Landscape Design
Washington D.C., U.S.A

Edibles in Small Spaces:
Our Nest planters are ideal to grow edibles even in spaces with no garden.

Step it up:
With the 14" width Mod planters it is easy to bring green to narrow spaces.

Midnight Blue:
A great replacement for black, Midnight will add elegance to any space.

Commercial Applications:
With TruDrop a commercial space can be retrofitted with new planters without the investment of costly sub-irrigation installations.

Narrow and Tall:
Instead of traditional urns these curved Cup planters make elegant entryways.

Supersize:
When you have a door that is over 7 feet tall make sure you use a planter proportionate like the Rim 30".

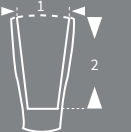

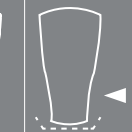

Alternating Heights:
Just like the buildings in this city landscape, use the Mod planters to create a textured barrier.

A	Easy Drain Screw Cap	AZ600588
B	Barbed Pull Drain Plug (For Pinch Planters only)	BT002P193
C	Coupler for Easy Drain Screw Cap	AZ607588
D	Display Box (30 Drain Caps and 10 Couplers)	AZ608888G

Make sure to order mess-free drain couplings if you will be emptying water cavity on a delicate surface.

Accessories For Easy Drainage

Replace the standard cap on the mouse hole opening at the bottom of the planter with the Easy Drain Screw Cap.

When you are ready to drain the planter just use the coupler to connect to a standard garden hose. Hose can then be directed to a bucket or a green area away from decks or delicate floors.

Display Box
(30 Drain Caps and 10 Couplers)

CRESCENT
garden

PLANTERS

10 Year Warranty

Crescent Garden rotationally molded products provide a great value given their 10 year limited warranty.

Anti-Shock

Manufactured with an extremely resistant resin, our crack proof planters provide years of enjoyment.

Weather-Proof

Our planters will never crack in winter or fade in summer, as they are protected against harsh weather and ultraviolet rays.

Lightweight

All Crescent Planters are easy to handle and convenient to install.

Adequate Drainage

Our planters are designed with the health of the plants in mind. Drainage holes are provided without the need for punch outs or drills.

Universal Saucers

We offer a variety of universal saucers to match our planters in size and design.

100% Recyclable

All our products are manufactured with polymer type ♻️ and can be recycled.

Designing with Plants:
Carefully curated containers create a mini-garden
to soften hardscapes.

Creating Rooms Outdoors:
Using rectangular planters to delineate spaces
is a great design tool.

Cityscapes:
Lightweight planters are ideal for rooftops and
balconies where weight can be a concern.

A Curated Space:
Combining planters and plants creates a personal space
that reflects the owner's personality.

Commercial Applications:
The Bowery planters are ideal to create visual boundaries in open spaces.

Adding Color:
With planters adding color to a landscape becomes easy and interchangeable season after season.

Simplicity:
Adding green in narrow spaces is easily achieved with an oval shaped planter.

MOBILITY AND DRAINAGE SOLUTIONS

Successful Gardening

We know drainage is essential to healthy plants, but protecting surfaces is also important so we offer a variety of solutions to make it happen.

Mobile Planters

Once potted large planters can be heavy. Add mobility to some of our planters with our casters, to clean and transform spaces easily.

Universal Round Saucers

A large, terracotta-colored pot with a vertical ribbed texture. It is filled with a plant that has green, rounded leaves and several bright red flowers with yellow centers. The pot is sitting on a matching terracotta saucer. A red triangle points to the saucer. The background is a blurred outdoor setting with a brick wall and a paved area.

PLANTERS

Lightweight and Durable

Just like our traditional Crescent Garden planters these new products represent great quality in their category.

Modern Design

Our selection of sleek designs brings a new look to everyday garden products.

Great for Interiors and Exteriors

These planters are all available in stock with no holes making them ideal for use as cache-pots for smaller plants.

Great Merchandising Ideas

Bright colors and fun styles makes it easy to create attractive in store displays.

Smaller Sizes

Crescent Too planters start at 5" in diameter.

Curb Appeal:
Easy, economical and ready to go these planters
will catch everybody's eye.
