Why Choose Akula?

- 🕒 Industry-Leading Warranty
- 🛠️ Custom Design Options
- 💰 Competitive Pricing
- ✅ Marine-Grade Materials
- 🏭 Vertical Factory
- 📦 Stock Supported
- ★ Over 100+ Years Experience

This is what makes Akula different.

Ready to take on the elements

The Akula range of beautifully designed marine-grade outdoor furniture is combined with the highest quality materials to ensure longevity in a heavy usage environment.

Our partnerships with respected manufacturers such as Sunbrella, Rehau, Trespa, Twitchell, Serge Ferrari and Tiger-Drylac to triple powdercoat our frames, provides further peace of mind against the elements.

Standing up to UV, seawater, chlorinated water, extreme temperatures, general wear and tear and with little or no maintenance. Our collections are created exclusively for the hospitality and contract market.

At the heart of everything is exceptional workmanship that stands the test of time.

CUSTOM

by akula

Here at Akula we understand that however extensive our collections are, every space has its own challenges and there is always the need for a bespoke product. Custom by Akula is on hand to assist. We can tailor our outdoor furniture and build to your specification, producing a truly personalised solution. Our experienced team and prototype factory will work alongside you to develop materials, dimensions and the design.

....Give us a problem and we provide the solution.

Design, Concept, Vision, Reality

Concept

From a concept drawing, we work alongside you to develop this concept into a functioning fit-for-purpose product. As an extension of your team, we offer advice and expertise to ensure your item of outdoor furniture is tailored to your space to give that bespoke finish with the expected Akula quality and finish.

Design

We can work with you on materials, table tops, heights and design, assisting in the design of your bespoke Akula outdoor furniture. Sample prototypes are produced by the factory in order to review shape, size and aesthetics ahead of testing and full production.

Mini Customisation

Our flexibility extends to the customisation of our existing product collection. Perhaps you like a dining chair but would prefer to change the arms, cushion style or simply specify a different colour, all this is possible in our Custom by Akula mini customisation service.

Customers Own Material (COM)

Often our clients are happy to select a product from our existing collections but wish to specify their own materials. Sometimes, this may be required to match brand colours and house style, other times it may simply be to match other furnishings already in situ. This service is all available at Akula.

MIX & MATCH

All our collections can be mix and matched together, as they are designed to complement each other.

Selecta

Selecta's classic styling offers superior seating comfort and dining versatility. Available in lava or white aluminium frame, with glass or ceramic table tops, this collection is low-maintenance and adapts effortlessly to outdoor spaces. There's no need for extra cushions as the sling fabric finishing in white, sand or quartz is the ideal balance between comfort and style with low maintenance.

Colonial

Incorporating smooth lines and classic styling, the Colonial collection uses a coated aluminium frame with a 5mm rope weave to give an extremely durable finish. Benefitting from cushion fabrics that won't discolour and are anti-fade, this furniture is manufactured to the highest standards and built to be UV, impact and scratch resistant.

Materials & Fabrics

FOR ALL APPLICATIONS

POWDER-COATED ALUMINIUM

Powder-coated Aluminium is a fluidised powder coating applied to the aluminium structure by electrostatic spray and then stoved at a temperature between 160°C (320°F) and 210°C (410°F). This process gives a lightweight but sturdy finish that is maintenance free and durable. Perfect for outdoor furniture!

GLASS (ACID ETCHED GLASS)

Designed for outdoor use, our hardened, acid etched top has intrinsic tensile strength of 10,000N/mm² and is scratch resistant and has a thermal conductivity of 0.8W/mk. Available in an 8mm thickness and suitable for table tops.

WICKER

Wicker is a synthetic, dyed through, high-quality thermoplastic fiber which is toxin-free, ecological and 100% recyclable. Ideal for use around the pool or deck due to its resistance to UV, sea water and chlorine as well as being easy to maintain.

ROPE & STRAP

Rope & Strap are stylish and durable finishes made from an Olefin outer and polyester filling. UV and mildew resistant, as well as being easy to clean with water or a specific mild detergent. Ideal for outdoor furniture pool side or by the sea due to their resistance to seawater and chlorine.

GRADE A TEAK

Our Grade A Teak wood is sourced from ecological plantations and aged 60 to 80 years to ensure superior quality. A quality teak finish which performs well and gives a natural aesthetic to outdoor furniture.

CERAMIC

Ceramic is hard-wearing, scratch, heat, UV, humidity, mould, fungi and frost resistant. Created by wet-grinding clay, granite and metamorphic rock raw materials together with a fieldspa component and ceramic pigments, it is then specially shaped in a compactor and sintered at 1200°C with gas firing. Easy-to-maintain with a resistance to detergents and cleaning products. Available in three thicknesses: CEW/CED 6mm and CESB/CEBO 9.5mm or 11.5mm.

AKULA WOOD

Used for table tops, chair slats and visual enhancements, Akula Wood is a non-porous composite material that looks and feels like high-quality natural wood, and is incredibly durable. It won't crack or splinter, is UV resistant, environmentally friendly, and most importantly it doesn't "age". All of our Akula Wood are dyed through, making it anti-scratch, anti-mould and anti-mildew.

SLING FABRIC

Developed to withstand wear and tear, and all types of weather conditions, the durability of sling knows few bounds; colours remain vibrant and can cope with years of continuous outdoor exposure and heavy usage. UV and stain resistant making it the perfect choice for outdoor furniture pool side or by the sea.

HIGH PRESSURE LAMINATE (HPL)

Manufactured at high pressure and temperature from a flat thermo hardening resin-based sheet with up to 70% wood-based fibers, the visible side is covered in a decorative surface using the patented Electron Beam Curing (EBC) technology. The result is a highly stable, dense panel with a good strength-to-weight ratio, excellent colour stability and weather resistance. Available in 13mm thickness.

FABRIC

Fabrics used in our outdoor furniture is designed to perform in demanding conditions whilst retaining its looks and vibrant colours. The fabric is easy to clean. UV, sea water and chlorine resistant and repellent for a durable, high-performance finish.
