FLEXIBLE FIBERGLASS RIBS

BUILT FOR COMFORT. BUILT TO LAST.

FiberBuilt Umbrellas & Cushions is dedicated to manufacturing state-of-the-art shade products for hotel, restaurant, country club, and many other hospitality and commercial uses as well as apartment and residential applications desiring contract quality umbrellas.

- Our innovative fiberglass rib construction ensures strength, resilience and durability. They absorb wind gusts, have been tested to over 50 MPH and last significantly longer than steel or wood ribbed umbrellas.
- We have developed a full line of contract quality umbrellas that hold up to the harshest weather conditions - intense sunlight, high winds, salt air and driving rain - and will not decay or lose their shape.
- For its inherent strength and longevity, the standard canopies of most of our umbrellas and cabanas are made of marine grade fabric.
- Our large scale and cantilever umbrellas provide substantial shade, have a uniquely contemporary look, and provide an architectural element to your outdoor space.
- FiberBuilt's cushion division manufactures high quality cushions and pillows. We offer a wide selection of standard and custom products that are durable, comfortable and fashionable at competitive prices with prompt lead times.

FLIGHT

PRESTIGE COLLECTION

Let your imagination take flight with the Flight umbrella. The inverted rib system of this patented model provides ample support to the canopy which is nearly horizontal when fully open. The polished aluminum upper ribs create a modern, industrial feel that appeals to boutique hotels and upscale restaurants. The 3/4" diam fiberglass ribs are encased in fabric above the canopy so that from below all you see is the fabric itself.

POLE INFORMATION

One piece, 2" diam
aluminum, .125 thickness

POLE FINISHES

BRIGHT ALUMINUM

- 24" x 2 1/2" upper ribs are gently curved polished aluminum
- Fabric encased fiberglass ribs with molded nylon joints
- Solid aluminum hub
- Pole comes in a bright, anodized aluminum finish
- Sewn-in storage ties are standard
- Custom top options include alternating panels, trim and banding
- Standard tops are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 62-70. Tops are also available in COM.

LOCKING PULLEY DETAIL

Detail of pulley rope in Locking Lift Mechanism

The polished aluminum upper ribs and flat, solid aluminum finial provide a contemporary look.

When open the horizontal canopy has a minimal silhouette.

SIZE/ SHAPE	MODEL #	FINISH COLOR OPTIONS*	FIBERGLASS RIBS	LIFT	HEIGHT	WEIGHT
9' Oct	9FLP-A	A - Bright Aluminum	3/4" diam	Locking Pulley	108"	53 lbs
11' Oct	11FLP-A		3/4" diam	Locking Pulley	108"	70 lbs

UNICO

PRESTIGE COLLECTION

With a modern, minimalist appeal, the Unico umbrella's inverted rib system creates a canopy which is nearly horizontal. The 3/4" exposed fiberglass upper ribs and fabric covered lower ribs support the elegant silhouette of this model.

POLE INFORMATION

One piece, 2" diam aluminum,
.125 thickness

POLE FINISHES

- Fiberglass ribs with molded nylon joints and hubs
- Pole finishes are powder coated
- All rib, finial and hub colors coordinate with the finish color selected for the pole except for Sahara which has Champagne Bronze ribs, finials and hubs.
- Sewn-in storage ties are standard
- Custom top options include alternating panels, trim and banding. See page 48.
- Standard tops are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 62-70. Tops are also available in COM.

WATTSUN

PRESTIGE COLLECTION

Whether relaxing by the pool or dining al fresco, you can keep your devices charged with Wattsun. The solar power finial and 2 USB ports mounted on the umbrella's pole allow you to stay connected while you're comfortably shaded. The battery holds a charge for up to eight hours, is glass-free for safety, and charges at outlet speed.

- Flexible fiberglass ribs with molded nylon joints, hubs and end tips.
- Solar panel finial and 2 USB port charging station on the pole. Charger sits 32" from the bottom of the pole so umbrella can be used in-table.
- Pole finishes are powder coated. Other finish colors are available for large orders. Consult factory.
- All rib, finial and hub colors coordinate with the finish color selected for the pole except for Sahara which has Champagne Bronze ribs, finials and hubs.
- Single, sewn-in vent and storage ties are standard.
- Custom top options include double vent, valance, alternating panels, trim, and banding. See pages 48-51.
- Standard tops are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 62-70. Tops are also available in COM.
- Pulley & Pin lift is available in place of Push Up & Pin for an upcharge. When ordering change the end of the model number from PU to PP.

PALM

PRESTIGE COLLECTION

The highly textured palm tree's trunk was the inspiration for this model's pole. The unique design incorporates a simulated bark-like pole, coconut shaped finial and unique multi-vented palm frondesque canopy. The layered tiers of fabric provide superior wind management and are recommended for properties that experience constant ocean breezes.

POLE INFORMATION

One piece,
aluminum core,
FiberTeak™ Simulated
Coconut Palm Finish

POLE FINISHES

- Flexible fiberglass ribs with molded nylon joints and end tips
- FiberTeak™ poles and finials simulate the look and feel of a real Coconut Palm Tree
- The poles are made with a heavy duty .125 wall thickness aluminum core and a protective, textured fiberglass coating for excellent durability
- Stainless steel hardware
- Single sewn-in vent and storage ties are standard
- Multi-layer palm leaf canopy with binding
- Standard tops are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 62-70. Tops are also available in COM.

10 ft Octagon Edge

EDGE

EURO COLLECTION

The Edge cantilever umbrellas sport clean lines, a contemporary feel and a touch of European panache. Unique features include the easy open lift design, the 80° inclined aluminum pole and a 360° rotation. Coupled with the multiple angles to which the canopy can be set, this chic style provides all day shade.

- 360° rotating pole and canopy
- 8 rectangular fiberglass ribs
- 80° forward-leaning inclined pole
- Platinum powder coated aluminum, stainless steel hardware and nylon accessories
- Non-vented canopy is standard
- Canopies are made of furniture grade, solution dyed acrylic. See pages 65-70. Tops are also available in COM.
- In horizontal position, canopy clearance is 77". In fully tilted position, total height is 150".
- Cast aluminum hub
- Stainless steel latch to lock ribs
- Accordion-fold canopy closure and covered ribs
- Umbrella and Base sold as a set

BASE PLATE

VENICE

EURO COLLECTION

This large scale umbrella is available in two sizes - 16' and 20' squares - that provide shade to either 256 or 400 square feet, respectively. Canopies are manufactured with double, sewn-in vents to provide excellent wind control. The heavy duty base affords a stable and complementary foundation to this imposing shade structure.

- Telescopic opening and closing system with lift rod
- 8 rectangular aluminum ribs
- Carbon powder coated finished aluminum and steel structure with nylon accesories
- Steel cross base structure for (4) 19"x 19" granite tiles with handles
- Double, sewn-in vent with storage ties standard
- Canopies are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 62-70. Tops are also available in COM.
- Custom top options include valance, alternating panels, banding and logos. See pages 48-51.
- Umbrella and Base sold as a set

CANTINA

EURO COLLECTION

Providing shade to multiple dining tables at restaurants or multiple chaise lounges on a pool deck, this cantilever model is an excellent choice. The 360° rotating pole allows you to move the shade throughout the day without repositioning the base. The push up handle with comfort-grip trigger lift means the 10 ft canopy can be raised and readjusted in seconds.

- 360° rotating pole and canopy – 8 rectangular aluminum ribs
- Carbon finished aluminum frame and fittings
- Hydraulic gas strut minimizes the effort to open and close the umbrella.
- Trigger lift with push up handle
- Steel cross base structure for (4) 19"x 19" granite tiles with handles
- Single, sewn-in vent and storage ties are standard
- Canopies are made of furniture grade, solution dyed acrylic. See fabric selections on pages 65-70.
- Custom top options include valance, alternating panels, banding and logos. See pages 48-51.
- Umbrella and base sold as a set

CANTILEVER

When your outdoor dining area would function better with an offset umbrella, our Cantilever model will provide the coverage you need without the interference of a center pole. These double vented, aluminum frame contract grade umbrellas are available in a wide array of fabrics to compliment any decor. Our 360° rotating Cantilever umbrella features a smooth-glide trigger lift mechanism and a foot activated rotator to provide 100 square feet of comfortable shade.

Detail of Trigger Lift Mechanism

- 360° rotating pole and canopy
- 8 rectangular aluminum ribs
- Bronze finished aluminum frame and fittings
- Trigger lift with crank
- Steel cross base for (4) 80 lb. granite tiles
- Double, sewn-in vent and storage ties are standard
- Canopies are made of furniture grade, solution dyed acrylic. See fabric selections on pages 65-70. Tops are also available in COM.
- Custom top options include valance, alternating panels, banding and logos. See pages 48-51.

ARUBA CANOPY

Available on Lucaya, Riva, Oceana, Bridgewater, Augusta, Diamante and Bambusa umbrellas

- Extra large vent designed for superior wind resistance.
- All standard options regarding canopy designs and patterns apply to these canopies.
- Standard tops are made of marine or furniture grade, solution dyed acrylic. See fabric selections on pages 62-70. Tops are also available in COM.

Detail of Fabric Covered Joint

WHEN ORDERING, ADD THE FOLLOWING CANOPY STYLE TO THE SELECTED UMBRELLA MODEL:

- ARUBA8 - for 8' diam
- ARUBA9 - for 9' diam
- ARUBA11 - for 11' diam

For example, a 9' Bridgewater with Chestnut finish and an Aruba Canopy would be: 9BPU-CH-ARUBA9

A **Double Vent Canopy** is another recommended style for umbrellas that will be used in locations prone to high or gusty winds such as seaside, lakeside, mountainous region or rooftops.

The additional vent allows more dispersal of the wind's energy. Double Vent Canopies are available on most Prestige Collection umbrellas. Canopies can either be made in all marine or furniture grade solution dyed acrylic or with the middle vent made of an open weave mesh that allows even more wind to sail through the canopy. Mesh is available in White, Pacific Blue and Forest Green.

Middle vent with Open Weave Mesh

CUSTOM LOGOS

SILK-SCREENED AND EMBROIDERED

- Silk screened logos can be applied to all umbrellas except Garden and Patio.
- Vector artwork and color specifications are required. Acceptable file formats are: AI, EPS and PSD. Note that for crisp images and fine, straight lines JPG, PNG and TIF files are not accepted for silk screening purposes.
- If vector artwork is not available, we can convert the image to the proper format for an additional charge. Charge depends on the complexity of the logo.
- On the valance, the maximum print size is 18.5" w x 4" h. Larger scale models, such as our 10ft Sq umbrellas, tents and pavilions, have larger valances and the imprint area may increase. Consult factory.
- On the panels, the print size depends on the shape of the logo. For rectangular logos, the maximum size 18.5" w x 12.5" h. For square or round logos, the maximum size 13.5" w x 11.5" h.
- In addition to panel or valance location, indicate how many times the logo is to be printed: on every side, on alternating sides (with blank panels in between), on opposite sides or once per umbrella.
- Logos can be printed with up to 4 solid colors. This is not the same as 4 color process.
- When submitting artwork, provide the PMS numbers for the colors selected. The PMS number is the color's formula.
- Logos are subject to a minimum fee. If set up & printing fees do not exceed the minimum, the minimum charge applies.
- Embroidered logos allow for different size and color specifications than silk screened. Consult factory for additional information.

ACCESSORIES & OPTIONS

ALUMINUM SAND AUGER A-AUGER-AL

For in sand application

- 27" overall height
- 6" diam fin
- Aluminum pole with .125 wall thickness
- Mill finish
- Fits 1 1/2" diam umbrella pole
- * Removable rotator handle included

FIN DETAIL

Carved spacers allow water and sand to drain out.

Installed auger shows proper depth to sink auger into sand and umbrella pole placed in the auger after handle has been removed.

INGROUND MOUNT MTDECK-LID

- 12" overall height
- 5" diam top plate
- Schedule 40 Aluminum pipe
- Mill finish

Umbrella pole shown in inground unit.

Top View of Mounting Plate showing two screws before tightening around pole and three holes that attach to inground unit.

Side View of Mounting Plate showing screw that tightens the two halves of the plate around the pole.

Cover Plate keeps debris from clogging tube when umbrella has been removed.

LED LIGHT KIT

To create the perfect ambiance for outdoor dining after dark, add our NEW LED Lighting Kit to the ribs of your umbrella.

- Kit of 8 or 4 elements can be ordered with your umbrellas or as an aftermarket accessory
- The individual LED arms attach to the ribs and connect to the battery pack. Can be daisy chained together for larger umbrellas or greater output.
- Three settings from subdued to bright

THREE LIGHT SETTINGS

Low

Medium

Bright

- Each light uses only 1.5 watts, providing the equivalent of 125 lumens incandescent bulbs when lights are set on high
- Fully charged battery pack lasts up to 8 hours
- Fits on 1/2" and 3/4" diameter ribs
- Rechargeable battery pack fits on 2" diameter pole. Adapter clips available for 1 1/2" diameter pole.

STORAGE BAG

7STO-BAG and 9STO-BAG

With Velcro closure and two handles for Market, Garden and Patio umbrellas

PROTECTIVE COVER

Available in three sizes to accommodate pole diam from 1.5" to 2.5" diam

BAR HEIGHT BOTTOM POLE EXTENSION POLE-EXTM

For Market and Patio umbrellas. Use for in-pool Sun Shelf installation as well as Bar Height tables. Available in White, Champagne Bronze, and Black.

ALUMINUM BASES

- Contemporary smooth style
- Available in seven colors
- Base sleeve with through bolt to secure umbrella
- All models ship filled with concrete
- Instructions included. Some assembly and tools required.
- Base must be ordered with the proper sleeve size.
Add to model number:
-2 for 1 1/2" and 2" poles or -25 for 2 1/2" pole

The included cap ensures that the pole fits snugly in the base sleeve by reducing the size of the opening. The cap can be removed if the pole fits securely.

Umbrellas should be secured in the bases using the provided Through Bolt.

CUSHIONS

Our expert production staff will create high quality cushions that will restore the look and comfort of your outdoor furniture.

Replace worn, frayed or faded cushions on your existing chaises, chairs and benches or add new throw pillows, pool pillows, seat pads and cushions.

Cushions are available in a wide variety of standard sizes. For custom cushions, simply provide us with a sample or template of your existing cushions or pads and we will produce pieces in matching sizes.

For detailed instructions on how to measure cushions and furniture for replacement cushions, visit our website's Learning Center. Or scan this QR code and watch one of our helpful Youtube videos on how to properly measure existing cushions to order replacements that will fit correctly.

CUSHION CONSTRUCTION

Our standard construction method provides a Dacron wrap around the foam core for shape, loft and comfort.

To aid in the drying process: for all styles and fills, unzip the cushion and drain excess water and stand cushion on its side to dry. Once dry, close zipper.

CUSHION FILL OPTIONS

RETICULATED FOAM

Long lasting comfort with quick drying capabilities. Dries easily after exposure to rain or other forms of moisture and humidity. The open cell design provides maximum water drainage and air circulation allowing cushions to be back in service quickly after being wet.

STANDARD OUTDOOR FOAM

Soft, comfortable and budget friendly. The best application for this foam is in dry climates or protected outdoor settings, such as covered patios and sunrooms.

DENSIFIED FILL

Compressed fiber filling is economical and has a low water retention level. It drains fast and dries quickly, depending on the present weather conditions at your outdoor setting.

CUSHION FEATURES AND OPTIONS

Customize your cushions to fit your furniture needs with details that suit the frame's shape.

Specify your choice of connectors to keep the cushions snugly in place.

Headrest with Velcro Strap

Throw Pillows with Contrasting Fabrics and Decorative Trim

Fabrics used for umbrella canopies and outdoor cushions need to hold up to the kinds of harsh conditions that interior fabrics never experience - direct exposure to intense sunlight, salt air, driving rain are all part of their day to day existence. Year after year they also need to

maintain their color fastness without stretching and remain stain-, mold-, mildew-resistant. For the durability our customers deserve, FiberBuilt uses only solution dyed acrylics made by industry leading manufacturers, including Sunbrella, Outdura, and Tempotest.

Marine Grade fabrics have a tighter weave, are stiffer to the touch, abrasion resistant, and heavier. The stiffness of the material makes is appropriate for most umbrella canopy applications.

Furniture Grade fabrics are softer, more flexible and can be used for both canopies and cushions, pillows, headrests and poufs, providing a soft hand and comfortable feel.

UMBRELLA WARRANTY

FiberBuilt Umbrellas & Cushions warrants our two piece fiberglass ribbed Garden, Patio, Market and Beach Umbrellas, and all Wood umbrellas, as well as all bases, Cabanas and upholstery work for a period of one (1) year from the date of purchase, to the original purchaser, against defects in materials and workmanship. Additionally, fiberglass support ribs on our Market and 8-rib Beach Umbrellas are warranted for five (5) years from the date of purchase. Our Prestige Collection Umbrellas (Augusta, Bambusa, Bridgewater, Contempo, Diamante, Flight, Gusto, Lucaya, Nitro, Oceana, Palm, Riva, Unico and Wattsun) are warranted for a period of five (5) years from the date of purchase, to the original purchaser, against defects in materials and workmanship. Fiberglass support ribs on all Prestige Collection Umbrellas are also warranted for five (5) years. Solar charging components on Wattsun are warranted for one (1) year against defects related to electrical issues (such as battery or solar panel failure) or if charging ceases to function. Our Euro Collection Umbrellas (Bali, Cantina, Edge and Venice) are warranted for a period of two (2) years from the date of purchase, to the original purchaser, against defects in materials and workmanship. For the warranty to apply, umbrellas must be secured in properly weighted bases, equal to or exceeding the weights provided in FiberBuilt's Base Weight Charts. See base pages for recommended usage.

Though our fiberglass ribbed umbrellas have successfully passed wind tests over 50 miles per hour, FiberBuilt Umbrellas & Cushions does not recommend leaving umbrellas open during storms or strong winds. Customer is responsible for taking the umbrella down when winds reach unsafe conditions. Normal care and maintenance of products is required to insure years of problem free use.

Damaged umbrellas should be immediately taken out of service. This warranty does not cover the umbrella pole, crank or tilt, normal fading of fabrics and finishes and chemical stains. This warranty does not cover any damage due to acts of God, abuse, misuse or vandalism incurred to the umbrella after purchase, nor does it cover customer's own material. For warranty to apply products must be properly cared for and maintained. Modifications made to the product after production may void warranty. This warranty does not provide coverage or reimbursement for loss of use, time, inconvenience or other damages resulting from any defect in the product. To find out more about our warranty or to file a claim, please contact our customer service department at: 866-667-8668. No returns will be accepted without prior approval.

TILT UMBRELLAS ARE NOT WARRANTED IN COMMERCIAL APPLICATIONS

FABRIC WARRANTY

Fabric options offered vary by product. Umbrella canopies made from Sunbrella, Outdura and Tempotest fabrics are warranted from the fabric mill against light fastness. This is a limited pro-rated warranty provided directly from the fabric mill for a period of five (5) years for Sunbrella and Tempotest furniture grade fabrics and for a period of ten (10) years for Sunbrella, Outdura and Tempotest marine grade fabrics. This warranty covers the fabric becoming unserviceable because of loss of color or strength from normal exposure conditions including sunlight, mildew, rot and atmospheric chemicals. It does not cover labor and installation supplied by FiberBuilt Umbrellas & Cushions or any other dealer. In the event that your fabric fails, please contact us to submit a claim and for further details. All fabric must be properly maintained and cleaned regularly for the warranty to be effective. Spun Acrylic, vinyl coated weaves and select marine grade fabrics do not carry an additional warranty.
