dormire bene vivere meglio

Where Art And Science Merge  
For Exquisite Rest

---

100% Made in Italy

## Luxury Bedding Crafted By Italian Artisans

Created in a small garage in Forlì by two distinguished artisans, Dorelan blends the best of Italian artistry with research-based comfort. Our sleep solutions are created based on scientific research that addresses comfort, temperature, heat transfer, support, breathability, and responsiveness to body movement.

After 50 years of producing exclusive collections for individuals and hotels alike across the globe, Dorelan helps you keep the dream alive.

**50+** Years of experience in luxury bedding

Patented MyForm foam formula for optimal comfort

**100%** Made in Italy from the best raw materials

Scientific research and development behind every mattress

A legacy of the finest Italian craftsmanship

## Ilaria Marelli

As an architect and designer, in 2004 I opened the “Ilaria Marelli studio”, where I work on ideas that are both emotional and experimental at the same time, dealing with design from a 360 ° perspective: art direction, product design, strategy consulting, interior design and outfitting. I regularly collaborate with numerous international companies to create products and collections, alternating my interest for serial production, with the design and development of unique pieces for international exhibitions. I deal with the design and outfitting of showrooms and concept stores in the field of fashion and design, and I have been in charge of an entire exhibition hall for Pitti Immagine since 2006. With a great interest in the social and cultural aspects of design, I am a sponsor of Italy’s first co-housing project, I collaborate on applied research topics with Poli.design, and I have been teaching Product / Service Design at the Polytechnic University of Milan since 2002. I was appointed as a member of the Italian Design Council in 2007, I received the MILANODONNA award in 2008, and was conferred the “AlumniPolimi Award “for architecture in 2015.

## Sam Accoceberry

Born in Bordeaux, he currently works and lives in Paris. After graduating from the Ecole Nationale Supérieure d'Art de Nancy, he joined the Alcatel Advanced Design Department in the year 2000. From 2001 to 2004, he collaborated with several architectural and design studios in Milan, including Antonio Citterio & Partners, Rodolfo Dordoni and Paolo Zani. In 2004 he returned to Paris and worked as a design-manager for Arik Levy until 2010. He simultaneously began developing his own projects, and in 2008 he began working with ALKI, where he received the Red Dot Design Award for two consecutive years. In 2010 he opened his own studio and began working as a designer and art director for various brands. In 2013 he was awarded the Grand Prix de la Création de la Ville de Paris. He also teaches Design at the Esad Orléans, Strate Paris, and the Ecole Nationale Supérieure d'Art de Nancy. Among others he has cooperated with Alki, Bosc, Roche Bobois, Chevalier Edition, IPI, Aéroport de Paris, JCDecaux, La Boîte Concept, Staub, Orange, Augmented Acoustics, Carmenes, and more.

## Giulio Iacchetti

Giulio Iacchetti, industrial designer since 1992, designs for many brands including Abet Laminati, Alessi, Danese, Elica, Foscarini, Globo Ceramiche, Jannelli&Volpi, Hastens, Magis, Meritalia, Moleskine, Pandora design. The distinctive characteristics of his work is the research and definition of new object typologies, like the Moscardino, the biodegradable spoon/ fork designed with Matteo Ragni and for which, in 2001, he has been awarded with Compasso d'Oro. In 2009 he was awarded the prize for innovation — Premio dei Premi — by the President of the Italian Republic for the Coop Eureka project. In May 2009 the Triennale di Milano held a solo exhibition entitled "Giulio Iacchetti. Disobedient objects". In November 2012 he launches Internoitaliano, the "factory network" made up of many craftsmen labs with whom he signs and produces furniture and accessories. In 2014, he won his second Compasso d'Oro for the design of the manhole covers Sfera, designed with Matteo Ragni for Montini.

## Enrico Cesana

Born in 1970, he attended the faculty of architecture at Politecnico di Milano where he obtained a degree in 1997. From 1998 to 2004, two successful professional experiences led him to deal with industrial and interior design and to develop different design methods and approaches. From 2005 he opened his own studio in Lissone where he deals with industrial design, communications and architecture. Many are his creations with a special vocation for the design of upholstered systems; he designed for the leading furniture industries that have written and continue to write the history of Italian design. He collaborates with SpHaus, Ivano Redaelli for which he signs many successful products from an image and commercial standpoint; he redesigns the corporate image from product to communication, he also collaborates with Orizzonti, Alivar, Composit and Cinova. Since 2009 he is Art Director of the Design area of Dorelan engineering.
