Cantilevers are all the rage and it's easy to understand why.  
The single base footprint and large canopy provide shade to multiple seating groups.  
Perfect for both dining and lounge areas.

## SINGLE CANTINA

- Available in 10' x 10' and 10' x 13' canopy models
- 360° rotating pole allows you to move the shade throughout the day without repositioning the base
- The push up handle features a comfort-grip trigger and hydraulic gas strut which allows the canopy to effortlessly be raised or repositioned in seconds
- Furniture grade solution dyed acrylic canopy is available in hundreds of Sunbrella and Tempotest colors
- Two powder coated finish options
- Umbrella and base are sold as a set

Timber

# DOUBLE CANTINA

For hospitality, restaurant, country club or commercial applications, this double canopy model provides shade for multiple chaises or tables with a minimalist silhouette and innovative construction features.

# QUAD CANTINA

This strong single pole and base support four 10' x 10' canopies and provide shade to multiple seating areas covering 400 square feet. The finish colors allow the umbrella to complement a variety of furniture styles from traditional woven wicker to the most modern, powder coated aluminum.

This super large scale center pole model comes in 13, 16 and 20 ft square sizes. The canopies are manufactured with double, sewn-in vents to provide superior wind management and the heavy duty base provides a stable foundation for this impressive shade structure.

## VENICE

### Features include:

- A telescopic opening and closing system with a lift rod
- 8 rectangular aluminum ribs
- Carbon powder coated finish on an aluminum and steel frame with nylon accessories
- Canopy is made of marine or furniture grade, solution dyed acrylic
- Custom canopy options include valance, alternating panels, banding and logos
- Steel cross base with (4) concrete composite tiles
- Umbrella and base are sold as a set
