Our Customer Promise

When Paula Douer and Harry Tchira created Crescent Garden in 1999, they were skilled in manufacturing and design, and while enthusiastic about gardening they weren't yet experts. They set about listening, learning, and discovering from industry friends and colleagues what's needed for gardens and gardeners to thrive. Over 25 years later, Crescent Garden Company has become a popular and progressive home and garden provider, uniting a premier container gardening brand with pioneering self-watering and sustainable solutions. The company culture is powered by people who are professional, passionate and always in their customers' corner.

Lead brand Crescent Garden, trusted by contractors, designers, plant experts, independent garden centers and nurseries, offers containers and accessories distinguished by refined design and breakthrough innovation that lasts and lasts, for successful, inspired gardening.

Their pioneering TruDrop™ system engineers self-watering planters to go up to weeks without watering, for phenomenal results and more confident gardeners. TruDrop dramatically transforms the way people care for plants.

Crescent Too, available across garden centers, popular retailers and online, brings attractive and useful containers and supplies that make gardening easier and more rewarding to more people, at excellent value.

Crescent Garden believes that planters should work for you, not the other way around, and directs their R&D on design and innovation that pushes the envelope, legendary reliability and durability in whatever season, and understanding what works best for healthy plants and the people who love them.

With a vision to make gardening more accessible and relevant to everyone, while going beyond industry standards for what's possible, Crescent Garden Company dedicates everything toward a simple customer promise:

we help you grow

CRESCENT *garden*

Crescent Garden planters are defined by their refined design and breakthrough innovation that lasts and lasts for successful, inspired gardening.

All encompassing TruDrop

Attractive and useful planters that make gardening
easier and more rewarding for more people

Versatile self-watering with
TruDrop Flex

Everyday planters
well-made

At Crescent Garden, sustainability begins with a distinct sensibility — a circular, continuous approach for positive impact wherever we can make a difference. We look at everything in harmony, inside and out, over time.

Surrounding our products are processes and policies, for a holistic approach to lessening our own environmental footprint, which in turn can result in more climate-positive outcomes in our retailer and customer communities.

Whether it's internal ways of working, how we source, make and distribute, or how gardeners use, dispose, and recycle, we want to help everyone grow, more sustainably.

Centered on the lifecycle of our products

Our R&D lifecycle is circular from the outset: Materials / Manufacturing / Distribution / Customer Experience. Thoughtful resource use and innovations in product development, energy-efficient manufacturing, reducing our shipping carbon footprint, ecological emphasis in product use and advice, and responsible disposal and reuse. Good goes around.

Promoting green spaces in our facilities.

Our manufacturing facility in Colombia sits on a campus that invested heavily in adding trees and green spaces where there weren't any before, for improved carbon offset. Our new corporate headquarters is designed as a multi-use space with large green areas both indoors and outdoors that are designed as flexible work spaces both for us and open to the public.

Creating a paperless company

From our beginnings over 25 years ago, we envisioned a nature-centric company that would use technology to remain paperless. We have no file cabinets, and our team members work together on multiple, energy-efficient screens, integrating electronically with our vendors and customers. We continue to pioneer ways to work more resource-efficiently throughout.

DESIGN & PRODUCTION

- Responsible manufacturing is fundamental: efficient, safe, environment-conscious, and community-minded.
- Total recycling approach reusing scrap and excess in our own facilities.
- Use of local, renewable suppliers when available.

MATERIALS

- Designed for continuous use – never ending the lifecycle.
- Easily separated mixed materials.
- **Introducing** upcycled and bio-based innovations: **Circular Positive™** product ranges.

DISTRIBUTION

- Lightweight and durable products that use less energy and packaging in transport.
- Ordering, production and shipping procedures to minimize resource consumption.

CONSUMER EXPERIENCE

- Using less water and fertilizer, a vital element in sustainable gardens.
- TruDrop self-watering planters collect rain and irrigation water for up to 50% savings.
- High durability. Most products supported by a 10 Year Warranty.

Understanding our Catalog

Specifications on Product

We have included inner and outer measurements as well as volume capacity for all our planters to make it easy when specifying a planter for a job.

		dimensions				volume capacity	planter ref.#	saucer ref.#

Identify the Logos

10 Year Warranty

Our 10 Year Warranty against fading and cracking on our rotationally molded products gives confidence to consumers when purchasing our products.

Circular Positive™, **NEW!**

A circular, continuous approach for plant and planet: these planters are made with UBQ™, a material upcycled from landfill waste, diverting harmful emissions for a more positive environmental impact.

TruDrop System

Our patented TruDrop self-watering delivers phenomenal results with little effort. See more details on page 18

Drainage Holes

Healthy plants start with proper drainage. Our planters feature pre-drilled drainage holes that allow excess water to escape, helping promote healthy roots and prevent overwatering.

No Drainage Holes

Healthy plants start with proper drainage. We design most of our planters with elevated pot feet and drainage holes that are adequately sized for each planter. However, there are times when consumers just need a cache pot or drainage can be an issue. In these case you will find the No Drainage Holes icon on the page.

Water Gardening

Easy to install and maintain, these containers are ideal to tap into the water gardening market. With a broad selection of shapes, depths and sizes, these containers can accommodate a variety of water gardening plants and fish. Some of our planters are also supplied with specialty plugs to use with fountain pumps.

Single Wall

Our single wall planters offer a lightweight, durable construction that makes them easy to handle and versatile for a variety of indoor and outdoor spaces.

Double Wall

Double Walled construction provides many benefits including superior structural integrity, enhanced appearance and insulating properties for better thermal protection of plant roots.

Can be Personalized

Some of our planters can be branded with a logo, house number or family name. See page 14.

Quick Ship Program and Special Orders

We provide a wide array of in stock items in our Quick Ship program that are readily available all year round. We consider these to be a selection of our best selling colors in each design and style. These can be viewed throughout the catalog in the individual shots provided on each page.

However, all of our Crescent Garden planters can also be customized in any of the colors below. Check with your customer service representative for lead times, pricing and terms on special orders.

Standard Colors:

Caviar Black Ref: 94

Old Bronze Ref: 14

Mocha Ref: 44

Cloud White Ref: 00

Rust Ref: 33

Weathered Terracotta Ref: 34

Weathered Concrete Ref: 92

Ash Ref: 98

Slate Ref: 97

Parchment Ref: 11

Shadow Ref: 95

Midnight Ref: 55

Olive Ref: 82

Bark Ref: 74

Can be Personalized

Make your next project unique by customizing the planters.

- Brand with hotel, city, healthcare facility or park name to delineate campuses and create greater awareness.
- Use for residential properties to identify street or house numbers.
- Create a custom family crest or display a family name to give an entrance a special touch.

Available Styles for Personalization

Pinch Planter

Rim Planter

Let's get started:

Image Requirements:

Vectorized graphic should be provided in any of the following file types: .ai, .eps, .dxf or .pdf. If providing pdf it should be created from a vectorized graphic.

Timeline for Customized Project:

Once images are received, we would provide artwork for approval within 4-5 working days. We would require signature approval on artwork. Once this is returned to us production lead time for Quick Ship items, can be between 4-5 weeks.

Minimums:

Contact us at customerservice@crescentgarden.com, for details on minimums and pricing for customized projects.

 TruDropONE

Weeks without Watering

With our TruDrop self-watering, containers can go without watering for up to 6 weeks depending on plant selection and climate.

Easy

With no rocks or wicks, this single-body planter just needs potting soil and plant making it easy even for first time gardeners.

Safe, Efficient

With 50% less water usage and more efficient use of fertilizers that remain in the water cavity, these planters are environmentally friendly.

Dramatically Successful

In our planters with TruDrop the plants determine how much water they need instead of the consumer which renders phenomenal results.

Finally.
A planter that
works for you.

Easy

Safe

Success

Efficient

Versatile

*Outdoor trials using a 20" (50,8 cm) planter have shown that plants **can go for up to 6 weeks without refilling.**

We never expected TruDropOne to change the way people garden but now we hear it from our clients.

“

“I returned home from **two weeks’ vacation...** and was very happy to see that my TruDrop planter did its job while I was away.”

Jed Laufferty, West Chester, Pennsylvania, U.S.A

“

“I think these are the **best** things since sliced bread lol.”

Jed Susan, Ontario, Canada

“

“They work great for me, as we live at a **lake home** with 6 outdoor pots and we are gone from our home several times a month for anywhere from a couple days to a week. With your pots, my flowers now make it through the summer without dying from lack of water.”

Debbie, Minnesota, U.S.A

“

“TruDrop’s claims that watering is only needed every two to six weeks sounded a little far-fetched, but... (It) works better than I ever imagined.”

Heather Rhoades, **Gardening Know How**

“

I got 26 days out of it... I **saved** that much **time** watering!

Laura LeBoutillier, **Garden Answer**, Oregon, U.S.A

“

“The pottery is **gorgeous** by the way! We have one very happy customer - can't wait to order more!”

Erin, **Landscape Solutions Company**, Tennessee, U.S.A

“

"We are a Boutique Resort in beautiful St. Croix, US Virgin Islands. For years we have searched for planters which could withstand our sun and sea elements and still have a classy and elegant presence. The planters are very easy to set up, plant and maintain. The guests continually compliment the elegance and beauty. We can not say enough about the quality of product and customer service."

Sand Castle on the Beach Hotel, Virgin Islands, U.S.A.

“

"Where we were once watering every day, we are now able to simply “top off” each planter once a week. The savings in man power have been exponential."

Mark Russel (Director of Horticulture),
SeaWorld Parks and Entertainment
Orlando, U.S.A.

“

"They have sixteen Pinch in Lawrence. I wouldn't use anything else now for city planters it saves me a lot of watering time! I have 34 estate planters in the city next to Lawrence, Haverhill. I have to water those every third day. Not with the Pinch."

Steve Nunan - Massachussetts
Nunan's Florist and Greenhouse, U.S.A.

Crescent Garden: Design Ideas

Edibles in Small Spaces:
Our Nest planters are ideal to grow edibles even in spaces with no garden.

Step it up:
With the 14" width Mod planters it is easy to bring green to narrow spaces.

Midnight Blue:

A great replacement for black, Midnight will add elegance to any space.

Crescent Garden: Design Ideas

Commercial Applications:

With TruDrop a commercial space can be retrofitted with new planters without the investment of costly sub-irrigation installations.

RESTAURANT & BAR

5556

Narrow and Tall:
Instead of traditional urns these curved Cup planters make elegant entryways.

Supersize:

When you have a door that is over 7 feet tall make sure you use a planter proportionate like the Rim 30".

Better Economics:

TruDrop self-watering allows properties to maintain planters at a fraction of the regular cost giving them flexibility to add green in more places.

A	Barrier Anchor Brackets for Pinch or Slat Planters (Set of 4)	4.64 11,8	in cm	1.10 2,8	in cm	AR06K1

Barrier Anchor Brackets can be added to attach planter to surfaces where needed.

TruDrop One - Easy Drain System

			
	description		product ref.#
A	Coupler for use with any easy drain plug		AZ607588
B	Easy Drain barbed pull drain plug		BT002P193
C	Easy Drain Screw Plug for Legacy Planters		AZ600588

Make sure to order mess-free drain couplings if you will be emptying water cavity on a delicate surface.

How easy drain works

B or C

Replace the standard cap on the mouse hole opening at the bottom of the planter with the Easy Drain Screw cap or barbed pull drain cap depending on the planter selected.

A

When you are ready to drain the planter just use the coupler to connect to a standard garden hose. Hose can then be directed to a bucket or a green area away from decks or delicate floors.

10 YEAR WARRANTY PLANTERS

Longevity

Crescent Garden rotationally molded products provide a great value to consumers given their 10 year limited warranty.

Protecting Surfaces

We offer a variety of universal saucers, caddies and other solutions to protect surfaces indoors or outdoors.

Well Designed

Every planter is detailed to deliver durability, better gardening solutions, and versatility in color and style.

What makes our Planters Unique

Double Wall

To protect roots from extreme temperatures, select our double wall planters that have a pocket of air between roots and the external wall.

Lightweight

Lightweight and easy to handle, our planters simplify transport, installation, and repositioning on projects of any scale. Less weight means easier handling on site, greater placement flexibility, and a more efficient installation from start to finish.

10 Year Warranty

Our 10 Year Warranty against fading and cracking will guarantee that you won't have complaints down the road.

Drainage

Healthy plants start with proper drainage. We design ours with elevated pot feet and drainage holes that are adequately sized for each planter.

Variety

Every style is available in stock in a curated selection of finishes, offering designers variety.

Bowls

Bowls have so many uses in a garden setting we wanted to make sure to provide you with a solution that works for all of those; our plugs allow you to easily change a bowl from a succulent garden, to a water garden or convert it into a bubbling fountain.

Use regular plug
for water gardens.

Use plug with hole
for fountains.

Use with no plug
for planting.

Gravity Cavity

Tall planters can be challenging in windy areas, so we designed ours with an internal cavity that can be filled with sand to weigh them down.

Attainable Design

We offer planters that are designed with a single wall for a value oriented option that still has a 10 Year Warranty.

Designing with Plants:
Carefully curated containers create a mini-garden
to soften hardscapes.

Cityscapes:

Lightweight planters are ideal for rooftops and balconies where weight can be a concern.

Young and Hip:

These Pleat planters target newbies who are looking for design.

Entryway Solutions:
Our Leyla urn is perfect for those looking for a classic style at their doorstep.

Simplicity:
Adding green in narrow spaces is easily achieved with an oval shaped planter.

**Single-Wall Planters
Sculptured Rim**
A thickened rim enhances durability and rigidity while preserving the planter's lightweight construction and refined appearance.

**Pre-Drilled Drainage Holes
Healthy Drainage**
Pre-drilled drainage holes help prevent water accumulation and support optimal growing conditions for healthier plants.

**Nestable Planters
Space-Saving Design**
Designed to nest inside one another for compact storage and efficient shipping. Available as a four-piece set in Standard or Tall.

 TruDrop FLEX

NEW! Innovative Cover Choices

Our TruDrop Flex inserts can now be paired with our **Circular Positive™** planters, made with upcycled materials.

Optional TruDrop Self Watering

Add insert to go weeks without watering for phenomenal results and successful gardening.

Mix and Match

Complete flexibility from grower, to garden center, to consumer. Plants can be grown in insert and covers selected to reflect desired style.

Value Solution

Single wall planters can be used on their own or with TruDrop self watering insert. Accessible to everyone.

Mix and Match

©TruDrop^{FLEX}

Grab and Go Containers:

Grow in nursery, display in garden center. Allow consumer to customize with their style in mind.

Build your Own:

Allow consumers to make their own TruDrop Flex self-watering container by purchasing cover and inserts in the store.

5 Year Warranty Planters:

Circular Positive TruDrop Flex Planters, available as versatile stand-alone containers that combine modern design with lasting durability backed by a 5-Year Warranty.

MOBILITY AND DRAINAGE SOLUTIONS

Successful Gardening

We know drainage is essential to healthy plants, but protecting surfaces is also important so we offer a variety of solutions to make it happen.

Movable Planters

Once potted large planters can be heavy. Add mobility to some of our planters with our casters, to clean and transform spaces easily.

Innovative Solutions

Maintaining proper drainage is indispensable for the survival of containerized plants. Our accessories present a variety of innovative solutions.

Pebble Plant Caddies

These planters can move:
Hidden casters make it easy to clean or move
your plants as the seasons change.
